To All PCC Intermodal Clients

Refers to the manipulation fee for railway service in DCT Gdańsk

Dear Clients,

Due to the fact that there are still ongoing discussions with some shipping lines who are trying to explain the legitimacy of DCT Gdańsk of charging 'manipulation fee', PCC Intermodal postpones the start of re-invoicing the costs associated with this fee to July 1st, 2020.

We do also hope that by that time DCT Gdańsk will cease to apply this unjustified fee toward intermodal operators.

Please note that there is no such charge at any other sea terminal where THC conditions apply. PCC Intermodal continues to strongly oppose DCT's discriminatory policy on intermodal transport.
